

**Amendment**

U.S. Patent Application No. 09/475,385

**IN THE SPECIFICATION**

Please substitute the following amended parts of the specification as indicated in the above-identified application. (A version of the amended specification with markings to show the changes made is also attached.)

At page 1, after line 5, please insert the following new paragraph:

C1  
--The present application is a divisional application of U.S. Patent Application No. 08/663,709 filed June 14, 1996, now abandoned.--

At page 7, please replace the second paragraph, lines 7-15 with the following:

C2  
--The carbonaceous material described above is then modified by the attachment of an organic group to the carbonaceous material. Preferred processes for attaching an organic group to a carbonaceous material are described in detail in U.S. Patent Application Nos. 08/356,660, now abandoned; 08/572,525, now U.S. Patent No. 5,851,280; 08/356,459, now U.S. Patent No. 5,559,169; and 08/356,653, now U.S. Patent No. 5,554,739, all incorporated in their entirety by reference herein. These processes can be preferably used in preparing the modified carbon adsorbents of the present invention and permit the attachment of an organic group to the carbonaceous material via a chemical reaction. As indicated above, the organic group attached to the carbonaceous material is one preferably capable of increasing the adsorption capacity of the carbonaceous material.--

**IN THE CLAIMS**

Please cancel non-elected claims 28-37 without prejudice or disclaimer of the subject matter set forth therein.
